

Earth Day 2006 Pathway Pickup Day

Please join the residents of our town in a special, fun event this Earth Day.

The Pathway Committee is organizing a 'Pathway Pickup Day' to clean up our town's beautiful pathways. It is simple to help out:

(1) Walk, bike or drive to Town Hall anytime from 8am-2pm on Earth Day, Sat, Apr 22nd. You will be greeted by members of the Pathway Committee who will hand out supplies (safety vests, gloves, trash bags and refreshments). You can also select a path that you would like to walk.

(2) Walk your favorite trail and collect any trash along it.

(3) Drop off your trash bag at town hall; there will be a special bin for this purpose. The Pathway Committee will also weigh the bags, to track the success of the project.

That's it!

Children are especially welcome to participate. You may see over 200 children from the Bullis Charter School on Friday Apr 21st walking through our town, kicking off this event as a school-wide community service project. A big thank you to the children, parents, teachers and staff of the Bullis Charter School for doing this.

Make a difference on Earth Day this year!
